

# Request to Citizens and Businesses of the Prefecture

Spend the New Year's holidays quietly to protect loved ones, hometowns and Ishikawa

---

**In addition to practicing the "New Lifestyle", please observe the following items:**

- ① Consult with your family and make careful decisions regarding traveling to and from areas where the infection has spread. In the event of such travel, consider taking year-end holidays in a staggered schedule to avoid crowded times.
- ② When eating or drinking, avoid large groups or long dinners, and be careful not to talk too loudly.
- ③ Avoid crowded times and places when making New Year's shrine visits.
- ④ Elderly people at greater risk of severe illness should act with caution.
