

# Request to Citizens and Businesses of the Prefecture

Golden week is set to begin. As the flow of people increases nationwide, so will the risk of infection. Please spend the holiday quietly to protect the local health system, as well as yourself and your loved ones. In order to reduce contact with others, refrain from going out unnecessarily.

**Refrain from unnecessary travel to and from other prefectures, including homecoming visits.**

In addition, we ask you once more to observe the following infection prevention measures:

- Avoid large groups or long meals, wear masks during conversations and refrain from talking loudly.
- Avoid the 'Three Cs' in daily life (closed spaces, crowded places, close-contact settings) and maintain thorough infection prevention measures such as regular hand washing.
- Businesses should strictly comply with industry-specific guidelines.
