

Request to Citizens of the Prefecture

On July 9, Ishikawa Prefecture issued a **'Spread of Infection Warning'**

On July 14, the risk of COVID-19 infection was upgraded from **'Stage 2: Infection Spread Alert'** to **'Stage 2: Major Infection Alert'**.

① Eating and drinking out

- Strictly adhere to the 'New Lifestyle' and always wear a mask.
- **Remain wary of visiting customer service-based eating and drinking establishments.**

② Travel to and from other prefectures

- **Refrain from any unnecessary travel** to and from areas currently under state of emergency or quasi-emergency infection measures. If such travel is unavoidable, return home immediately having completed work assignments.
- **Remain wary of travel to other prefectures** where the infection has spread, while considering holding meetings online wherever possible.

Please also take the following actions:

- Thoroughly implement infection prevention measures such as avoiding the 'Three Cs', washing hands and wearing masks.
- Avoid the **five situations** that increase the risk of infection: ① Social gatherings involving alcohol, ② Long meals in large groups, ③ Conversations without a mask, ④ Living with others in a small space, ⑤ Switching locations
