

Request to Citizens of the Prefecture

On September 30, the quasi-emergency coronavirus measures were lifted. However, it does not mean that normal everyday life has resumed. We ask that you **continue to take thorough measures to prevent infection.**

① Travel to and from other prefectures

- **Refrain from going out unnecessarily**, including during the daytime.
- **When necessary, do so in small groups and avoid crowded places and times.**

② Eating and drinking out

- Strictly adhere to the 'New Lifestyle' and always wear a mask.
- **Be wary of eating and drinking in large groups and for long periods of time.**
- **Use facilities certified by the Ishikawa COVID-19 Countermeasure System.**

③ Workplaces

- **Be careful when moving to new locations such as break rooms, changing rooms and smoking areas.**
- Promote initiatives to reduce human contact, such as telework, staggered work hours, and bicycle commuting.
- Thoroughly implement measures to prevent infection, such as encouraging ventilation in workplaces and staggered lunch breaks.

④ At home

- **Continue to take all possible measures to prevent the spread of infection.**
