

Request to Citizens of the Prefecture

Quasi-emergency infection control measures in Ishikawa Prefecture have been re-extended until March 21 2022

① Going out/Travel to and from other prefectures

- If you or a family member are feeling even slightly unwell, such as having a fever or cough, refrain from going out.
- Refrain from any unnecessary travel to and from other prefectures.

② Eating and drinking out

- Refrain from using eating and drinking establishments without thorough infection control measures; use those certified by the Ishikawa COVID-19 Countermeasure System.
- Refrain from using eating and drinking establishments that do not comply with requests for shorter business hours.
- Eat in small groups, and in silence as much as possible. Wear a mask when conversing.

③ Workplaces

- Reduce the number of employees coming to work through telecommuting and promoting the use of vacation days.
- Take measures to prevent infection, such as encouraging ventilation in workplaces and staggered lunch breaks, as well as thorough actions to avoid the "3 Cs".

④ At Home

- Regularly ventilate rooms and wash hands frequently.
- Ensure that children, the elderly and those with underlying medical conditions are protected from infection.
