

Request to Citizens of the Prefecture

On July 15, Ishikawa Prefecture issued a 'Spread of Infection Warning'

The summer season has begun in earnest, with the Obon holiday also due next month. Please continue to ensure that basic infection prevention measures are in place.

① Eating and drinking out

- **Eat in small groups, and in silence as much as possible.** Wear a mask when conversing.

② Going out/Travelling to and from other prefectures

- Maintain thorough infection prevention measures when travelling or returning home.
- If you are unwell, avoid crowded places or places with a high risk of infection.

③ Workplaces

- Promote the use of telework and staggered work times.
- Use air-conditioning sustainably while ventilating rooms.
- **Be careful when moving to new locations such as break rooms, changing rooms and smoking areas.**

④ At Home

- **Regularly ventilate rooms and wash hands frequently.**
- Ensure that **children, the elderly and those with underlying medical conditions** are protected from infection.

Remove masks when outdoors to prevent heat stroke
