

Special infection alert concerning outbreaks between young people in bars, nightclubs and similar establishments

Recently there have been five new clusters, with the number of young people being infected rising greatly. The number of infections has tripled in one week, 80% of which were young people visiting such premises.

For the sake of you, your family and friends

To all businesses:

- Re-enforce measures to prevent the spread of infection (e.g. always wear a mask when not eating)
- Ensure that strict hygiene standards are maintained throughout the premises including staff waiting rooms, while maintaining that employee health is strictly monitored.

To all staff members:

- If you feel unwell at all, do not go to work, and instead contact the following center:
Ishikawa Prefecture Fever Consultation Center 0120-540-004 (24 hours a day, Japanese only)

To all clientele:

- Make careful judgements regarding the use of bars, nightclubs and similar establishments.
