

Request to Citizens and Businesses of the Prefecture

On April 5, the risk of COVID-19 infection was upgraded from Stage I to Stage 2. In order to prevent further transmission of the virus, we ask you once more to take the following measures:

Travelling to and from other prefectures

- Consider holding work meetings etc. online.
- Return home promptly having finished work assignments.

Eating and drinking out

- Avoid large groups or long meals, wear masks during conversations and refrain from talking loudly.
- Refrain from visiting bars, nightclubs and similar establishments that have not taken appropriate infection control measures.
- Make careful judgements regarding the holding of welcome and farewell parties for coworkers.

In addition, take all possible measures to prevent infection when using Go To Eat or campaigns supporting prefectural accommodation facilities.
